HOLDOUTS

38 VERY RARE HOLDOUT TABLE. 29"H x 18W x 20L. This holdout table breakdowns easily. It could be carried by the travelling sharper in a carpetbag. The legs attach with wing-nuts. The table is covered with a "ribbed" material, which hides the opening through which the cards are concealed and removed. The mechanism is professionally made, these were advertized in many of the earliest gambling supply houses. There is a piece that the sharper inserts after he is seated. This piece is fitted in a slot under the table. By applying pressure with the knee, the sharper can have cards come up through the top of the table, and in front of his spread hand. Discards can be put in the thief, by lowering his knee, the sharper allows the mechanism to take the discards inside. After the players are fleeced and have left, the table can be taken apart and packed away for travelling. The table top has been replaced, the material is not permanently sewn down, as the object is not to use this table for sharpong, but to use it for display. By peeling back the covering you can display the inner workings. A super piece. The legs have scratches and nicks, showing the age. I have never seen another. 1,900.00

I think that it is appropriate to pause for a moment and comment on dealing boxes. Almost all the boxes offered on these pages came from one collection. They have been assembled over many years. By having so many to choose from the new collector may get the impression that these boxes are quite common, on the contrary they are very scarce. I have only offered a couple of boxes on passed catalogues, due to the fact that I could not locate any. Only one that I offered was gaffed. So if you have been contemplating the purchase of a few good boxes, take the time to read this section, it may be the last opportunity you will have to choose any. The ones described here are all above average, many are one of a kind. As you will see no two are identical.

69 UNMARKED, BUT STAMPED ACROSS THE TOP "SEIZED COMSTOCK". This dealing box is in excellent condition. It shows age, but could be cleaned. Anthony Comstock

439A POSTCARDS RELATED TO THE FIELD OF GAMBLING. We always have in stock a selection of fine and early postcards related to the field of gambling. Framed, these postcards display well with other fine gaming items. If you would like to choose some for your display, let us know and we will send a group of them for your inspection. These cards range in price from \$2.00 up to about 15.00. We have some depicting interior views of casinos, saloons, poker dens and scenes that are humorous, as well as serious. So drop us a line, or give us a call. We will be glad to send out some on approval. All that we ask is that any cards sent to you are either purchased or returned promptly.

I hope that we have been able to complement your collection by providing some fine additions for it. It is my personal opinion that the field of collecting antique gambling paraphernalia, is in it's infancy. I feel that other collectors will enter the field as they become aware of the beauty and rarity of the items described on these pages, and seen in displays at shows all over the country.
